PROFESSIONAL SUMMARY

Senior Software Engineer (Frontend) with 4+ years of software development experience. Currently at Paytm's Insurance vertical, working on Motor Insurance and Health Insurance products using React.js, Next.js, and Nest.js — developing frontend features, building BFF (Backend-for-Frontend) services in Node.js, and resolving production bugs to improve reliability at scale. Strong foundation in TypeScript, JavaScript, REST APIs, performance optimization, and end-to-end feature delivery.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript (ES6+), HTML5, CSS3
- **Frontend:** React.js, Next.js, responsive UI, component architecture, state management, cross-browser compatibility
- **Backend:** Node.js, Nest.js, BFF (Backend-for-Frontend) architecture, REST APIs, WebSockets
- **Tools & Practices:** Git, GitHub, npm, Agile/Scrum, debugging, performance optimization, bug triage

PROFESSIONAL EXPERIENCE

Paytm (Insurance Vertical) *Jun 2025 – Present*

Senior Software Engineer – Frontend

- Working on the frontend of Paytm's Motor Insurance and Health Insurance products using React.js, Next.js, and Nest.js.
- Built and maintained Backend-for-Frontend (BFF) services in Node.js for both Motor and Health Insurance — handling API orchestration, data shaping, and integration between frontend and downstream services.
- Developed and delivered multiple customer-facing features across insurance flows, collaborating with product, design, and backend teams.
- Investigated and resolved a large volume of production bugs, contributing to a 2–3% reduction in overall defect/drop-off rate across insurance flows.
- Focused on performance, responsiveness, and maintainability of React/Next.js-based insurance UIs serving users at scale.

Gameium LLP *Jun 2023 – Jun 2025*

Software Developer

- Developed interactive web applications using TypeScript, JavaScript, and Node.js, handling both frontend and backend responsibilities.
- Built core logic and multiplayer backend services; optimized real-time performance and network communication.

Gamixlabs *Nov 2021 – Jun 2023*

Software Developer

- Developed HTML5 web applications and interactive experiences using JavaScript and TypeScript.

- Contributed to architecture, core logic, and UI flows across multiple releases.

KEY PROJECTS

Paytm Motor Insurance — Frontend + BFF for motor insurance product at Paytm

- Worked on the frontend using React.js, Next.js, and Nest.js — developing features across the motor insurance user journey.
- Built the Backend-for-Frontend (BFF) layer in Node.js, handling API orchestration and data transformation between frontend and backend services.
- Resolved production bugs and contributed to stability and reliability of the flow.

Paytm Health Insurance — Frontend + BFF for health insurance product at Paytm

- Worked on the frontend using React.js, Next.js, and Nest.js — developing features across the health insurance user journey.
- Developed the Backend-for-Frontend (BFF) layer in Node.js to serve tailored APIs for the health insurance frontend.
- Investigated and fixed production issues to improve the overall user experience.

Personal Portfolio — React.js web app

- Designed and developed a responsive React-based portfolio website showcasing projects and experience.

EDUCATION

B.Tech, ABESIT College of Engineering *2022*
Graduated with 78.5%

STRENGTHS

- Strong problem solver with a focus on clean, maintainable code.
- Collaborative team player, comfortable working across frontend and backend.
- Quick learner — continuously follows tech blogs and industry trends.

INTERESTS

Web development, reading tech blogs, and traveling.
